EDUCATORS FOR EDUCATION

PROFESSIONAL DEVELOPMENT TRAINING FOR Early Child Care PROFESSIONALS

E4E offers a variety of workshops/trainings that are designed for individuals who work in early childhood development. Participants will explore current research on childhood development from birth through age 5, and learn how to create appropriate classroom activities. Participants will also work on crafting objectives, and using master skills to accurately evaluate child development; and raise awareness of possible learning disabilities. We will help you enhance your offerings by providing professional development in areas that include, but are not limited to:

In addition to group professional development, E4E also offers Youth Development & Student Engagement Programs.

All of these quality services are offered at reasonable prices.

Our services are designed specifically for your needs.

Please contact E4E for more information.
