

FREE MENTAL HEALTH FIRST AID PROFESSIONAL DEVELOPMENT

This 8 hour training will help community members and professionals work with individuals struggling with mental health issues. Participants will learn the potential warning signs and risk factors for depression, anxiety disorders, trauma, psychotic disorders, eating disorders and substance abuse disorders. Attendees will also learn how to implement a five-step action plan for individuals in crisis and what mental health resources exist for children and families. Information will be shared on how to address mental health issues with children and how to overcome the barriers that exist when working with families coping with mental health problems.

2 Sessions

Participants must participate in both sessions in order to receive a certificate.
